Ken Smith, Landfill Director, City of Garland
Rowlett Creek
P.O. Box 469002
Garland, TX 75046-9002

Dear Mr. Smith:

We are gathering additional information for the Site Investigations of the Garland landfills. The sites are the Miles Road, Castle & Miles, Castle Drive, East Garland Road, Quail Creek, and Miller Road Landfills.

For each of the sites, would you please provide us with any information you have to answer the following questions:

- 1) What is the depth of waste (from current surface levels)?
- 2) How was the land used prior to use as a landfill (agricultural, industrial, commercial)?
- 3) Have fuels, cleaning solvents, or other chemicals been stored on-site (this includes the time of landfill operations)?
- 4) Does the State of Texas have any current regulations that may require the retrofitting of landfill controls (leachate collection, gas collection) on the closed landfills or the operating landfill?
- 5) Do you have any knowledge of ground water wells (i.e. private drinking water wells) within one mile of the Miller Road, Quail Creek or East Garland Road landfills? Also, can you give us the name and address of the owner of groundwater well that you previously mentioned as a suitable well to sample for the Castle Drive and Castle & Miles Landfills (north of the site on Castle Drive).

Thank you for your help, and please call me at (714) 975-2822 if you have any questions.

Sincerely,

Will Walters
ARCS Engineer
